BONSA DESALEGN

Data Analyst | Addis Ababa, Ethiopia | bonsa.desalegn@gmail.com
GitHub: github.com/bonssss | LinkedIn: linkedin.com/in/bonsa-desalegn-90175b257

PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in statistics, data visualization, and business intelligence.
Passionate about turning raw data into clear, actionable insights through Python, SQL, and Power BI.

EDUCATION

BSc in Software Engineering - Arba Minch University
Graduated with deep focus on software fundamentals, algorithms, database systems, and data analytics.

TECHNICAL SKILLS

Programming & Querying: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (PostgreSQL, MySQL)
BI & Visualization: Power BI (DAX, Star Schema, KPI Dashboards), Microsoft Excel (Pivot Tables, Advanced Formulas)
Tools & Environments: Jupyter Notebook, Git, GitHub, VS Code

FEATURED ANALYTICS PROJECTS

1. Sales Performance Analysis (Power BI, SQL)
Constructed executive reporting dashboard evaluating 25K in revenue trends, margins, and category velocity.

2. Exploratory Data Analysis Pipeline (Python, Pandas, Matplotlib)
Engineered automated EDA pipeline handling missingness, outlier detection, and statistical distribution profiling.

3. HR Analytics & Attrition Dashboard (Power BI, Excel)
Analyzed employee turnover drivers across 1,470 staff members, providing proactive retention indicators.

4. Customer Behavior & RFM Segmentation (SQL, Python)
Implemented NTILE window functions to classify 43,000+ accounts into Champions, Loyal, and At-Risk segments.
